# Requirement Analysis: Customer Journey Map

## METRO TICKET GENERATING SYSTEM IN SERVICENOW

**Platform:** ServiceNow Service Portal **Phase:** 2. Requirement Analysis **Target User:** Metro Commuters / Employees

## PHASE 1: ENTICE

*How does someone initially become aware of this process?*

### STEPS (USER EXPERIENCE)

- Discovers portal via employee intranet or direct link.
- Navigates to ServiceNow Service Portal homepage.
- Locates the "Metro Ticket Booking" service item.

### INTERACTIONS (TOUCHPOINTS)

- **People:** Portal Welcome Agents / Service Desk.
- **Places:** ServiceNow Employee Service Portal.
- **Things:** Portal Widget, Web Browser, Direct URL.

### GOALS & MOTIVATIONS

- "Help me quickly find and book my official metro travel pass without manual paperwork."

### POSITIVE MOMENTS

- Intuitive, modern Service Portal landing banner.
- Single-click access from featured service recommendations.

### NEGATIVE MOMENTS

- Difficulty locating ticket booking if catalog category is buried.

### AREAS OF OPPORTUNITY

- Promote quick-link tiles on portal main page.
- Add natural language search keyword tags for "metro", "transit", "ticket".

## PHASE 2: ENTER

*What do people experience as they begin the process?*

### STEPS (USER EXPERIENCE)

- Selects Source and Destination metro stations.
- Picks Travel Date and Ticket Type (Single, Return, Pass).
- Specifies number of passengers and passenger details.

### INTERACTIONS (TOUCHPOINTS)

- **People:** Self-service user interaction.
- **Places:** Catalog Item Order Form Page.
- **Things:** Catalog Client Scripts, UI Policies, Station Dropdowns.

### GOALS & MOTIVATIONS

- "Help me select accurate travel parameters easily without form errors or confusion."

### POSITIVE MOMENTS

- Auto-populated user profile information.
- Dynamic station dropdowns that filter correctly.

### NEGATIVE MOMENTS

- Selecting identical Source and Destination by mistake.
- Selecting past travel dates due to loose form validation.

### AREAS OF OPPORTUNITY

- Implement Catalog Client Scripts to prevent identical station selections.
- Restrict date-picker to current and future travel dates.

## PHASE 3: ENGAGE

*What happens in the core moments of the process?*

### STEPS (USER EXPERIENCE)

- Reviews dynamically calculated fare and travel distance.
- Submits ticket request through Service Portal.
- System triggers approval flow to designated approvers.

### INTERACTIONS (TOUCHPOINTS)

- **People:** User, Line Managers, Transport Approvers.
- **Places:** Service Portal, ServiceNow Approval Module.
- **Things:** Script Includes, Flow Designer, Automated Email Notifications.

### GOALS & MOTIVATIONS

- "Help me see transparent fare calculations and get my ticket request approved quickly."

### POSITIVE MOMENTS

- Instant real-time fare updates upon selecting route parameters.
- Automated approval request emails sent immediately upon submission.

### NEGATIVE MOMENTS

- Delays in ticket issuance if line manager approval is delayed.

### AREAS OF OPPORTUNITY

- Configure auto-approval rules for low-value standard tickets.
- Send push notifications / reminders for pending approvals via Flow Designer.

## PHASE 4: EXIT

*What do people typically experience as the process finishes?*

### STEPS (USER EXPERIENCE)

- System generates unique ticket number upon approval.
- User receives digital ticket and confirmation via email.
- Ticket status updates to "Generated" in Service Portal.

### INTERACTIONS (TOUCHPOINTS)

- **People:** System background processes, Commuter.
- **Places:** User Email Inbox, "My Requests" Portal View.
- **Things:** Generated Ticket Summary, Email PDF / QR Code.

### GOALS & MOTIVATIONS

- "Help me receive my generated metro ticket immediately so I can board without delay."

### POSITIVE MOMENTS

- Immediate email notification containing full ticket summary.
- Clear status visibility (Pending → Approved → Generated).

### NEGATIVE MOMENTS

- Inability to present ticket offline or print cleanly from browser.

### AREAS OF OPPORTUNITY

- Embed scan-ready QR code inside email notification and mobile portal view.
- Provide direct "Download PDF Ticket" action button.

## PHASE 5: EXTEND

*What happens after the experience is over?*

### STEPS (USER EXPERIENCE)

- Tracks historical ticket requests in Service Portal.
- Initiates cancellation if travel plans change.
- Automated scheduled jobs process refunds and fare adjustments.

### INTERACTIONS (TOUCHPOINTS)

- **People:** User, System Administrator / Finance.
- **Places:** Service Portal Ticket History, Admin Dashboard.
- **Things:** Scheduled Jobs, Refund Workflows, Audit Logs.

### GOALS & MOTIVATIONS

- "Help me easily modify or cancel my ticket with transparent refund processing."

### POSITIVE MOMENTS

- Hassle-free automated cancellation button on active tickets.
- Immediate state update to "Cancelled" with instant refund logs.

### NEGATIVE MOMENTS

- Uncertainty regarding exact refund terms or partial fare deductions.

### AREAS OF OPPORTUNITY

- Display interactive refund breakdown modal prior to cancellation confirmation.
- Send confirmation email detailing adjusted refund balance.
